

NATURAL STONE FLOORING & WALLING

Osmond Limestone

tumbled

tumbled.com.au

These tumbled limestone tiles are available in a myriad of shapes and sizes to promote intrigue while maintaining material consistency. Osmond is rich, warm caramel coloured natural limestone, which showcases subtle characteristics of veining and fossilisation. This natural limestone's texture suits both external and internal applications. Its distressed finish is softened by tumbling the limestone tile to provide a soft patina underfoot, making it a great selection for indoor wet areas and outdoor entertaining spaces.
