

# Beau Irregular Walling

If you're searching for a welcoming natural element to complement your project's colour palette, Beau Sandstone's delicate creamy hues – from milk to brulee – soften harsh whites and offer a myriad of contrasting options. Cut in irregular pieces to create a sense of intrigue, this sandstone's finish is reminiscent of the rugged region it's harvested from. We've split this natural stone on the surface, so that every piece offers its own nuances and textural footprint. Beau Irregular stone wall cladding and external corners will add a whisper of grandeur to both residential and commercial projects.

**Sealing & Cleaning**

Tumbled recommends Sealing all Natural Stone Tiles

For more information on caring for your natural stone please refer to our website [www.tumbled.com.au](http://www.tumbled.com.au)

---

**Please note**

If you are installing your stone without a grout joint we recommend an extra 15-20% for wastage. This then allows the stonemason to cut and shape the stone to ensure the joints are butt-jointed. We also recommend the installer unpacks each crate of stone and use the mix of the sizes supplied. Tumbled will not exchange smaller pieces for larger pieces, it is the installers responsibility to use all the sizes supplied.
