

NATURAL STONE FLOORING & WALLING

Byron Irregular Walling

tumbled

tumbled.com.au

Byron Irregular Sandstone's strong textural presence makes it the ideal walling feature for residential, landscape, and commercial designs. Exuding undeniable charm, the eclectic Australian sandstone pieces combine to form a stonework pattern spiked with dramatic colours and textures. The natural split edges add a sense of the wilderness to any indoor or outdoor space, in a palette of burnt toffees, light creams, and soft greys. We offer sawn-back and one-piece corners for efficient installation without any compromise on Byron Irregular Sandstone's appearance.

Note 1 Lineal Metre equates to 0.3 m² of Coverage

Ordering Details

Leadtime for product is 6-8 weeks as this a By Order Only Product

Sealing & Cleaning

Tumbled recommends Sealing all Natural Stone Tiles

For more information on caring for your natural stone please refer to our website www.tumbled.com.au

Please note

If you are installing your stone without a grout joint we recommend an extra 15-20% for wastage. This then allows the stonemason to cut and shape the stone to ensure the joints are butt-jointed. We also recommend the installer unpacks each crate of stone and use the mix of the sizes supplied. Tumbled will not exchange smaller pieces for larger pieces, it is the installers responsibility to use all the sizes supplied.
