

NATURAL STONE FLOORING & WALLING

Olivia Limestone

tumbled

tumbled.com.au

From its delicate veining to fascinating fossilisation, Olivia Limestone features subtle variations that catch the eye and hold our attention. The sandblasted finish amplifies its monochromatic palette but retains each tile's unique properties. This natural limestone has a textured surface that's soft underfoot, making Olivia Limestone a suitable selection for both external and internal applications. We love seeing Olivia Limestone installed around pools, against greenery, and softened by timber elements throughout landscape design.

Stone Colour

Green Grey

Tile Edges

Sawn
