

# Somerton Irregular & Random Ashlar Walling

Somerton Irregular Quartz Limestone is heavily crystallised; we love the way the quartz catches the light and reflects a subtle glow across a room.

This creamy quartzite limestone cladding enhances different design elements in its space depending on its grouting and installation method. Whether grouted or dry-stacked, Somerton Irregular Walling adds warmth and subtle elegance to its surroundings.

**Random Ashlar Corners**

20 - 40 mm

---

**Ordering Details**

Leadtime for product is 14 - 16 weeks unless instock

---

**Sealing & Cleaning**

Tumbled recommends Sealing all Natural Stone Tiles

For more information on caring for your natural stone please refer to our website [www.tumbled.com.au](http://www.tumbled.com.au)

---

**Please note**

If you are installing your stone without a grout joint we recommend an extra 15-20% for wastage. This then allows the stonemason to cut and shape the stone to ensure the joints are butt-jointed. We also recommend the installer unpacks each crate of stone and use the mix of the sizes supplied. Tumbled will not exchange smaller pieces for larger pieces, it is the installers responsibility to use all the sizes supplied.
